

April 13, 2000

Executives of Ohio, and served with the Community Improvement Association, the Celina Retail Merchants, and the Celina Business and Professional Association. She was a charter member of the Grand Lake Toastmasters, an organization dedicated to the improvement of oral communication and leadership skills. She is also an active member of her church, Grace Missionary Church in Celina. In 1997, the St. Mary's Business and Professional Women's Organization chose Jackie as their Woman of the Year.

Jackie Balfour is a true leader whose hard work and dedication should serve as an example for us all. Every American should aspire to this kind of enthusiastic commitment to service. I am proud to know and represent a person like Jackie Balfour in Congress. She is a truly gracious individual who strives to promote the ideals that will ensure our country remains a great place to live with hope and opportunity for all.

CONGRATULATING THE UNIVERSITY OF ILLINOIS AND THE CENTURY COUNCIL FOR THEIR WORK ON ALCOHOL 101

---

**HON. THOMAS W. EWING**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, April 13, 2000*

Mr. EWING. Mr. Speaker, today I congratulate the Century Council for their dedication to the fight against drunk driving and underage drinking. The Century Council, in conjunction with the University of Illinois at Champaign-Urbana, created Alcohol 101, an interactive CD-ROM program, which debuted on more than 1,000 college campuses during the 1998-1999 school year.

This virtual reality program is geared towards college age students and hopes to prevent and reduce the harm caused by abusive drinking habits. Students at the University of Illinois at Champaign-Urbana, under the guidance of Professor Janet Reis, assisted in the development of this program by participating in focus groups and extensive surveys.

Thanks to the input of these students, thousands of college students across the country will be able to witness the negative consequences of abusive drinking. As a result, the students will be better prepared when confronting these situations in their daily lives.

Alcohol 101 has received high recognition from many health, education, and communications competitions. Most recently, the program received the prestigious FREDDIE award in the area of Health and Medical Film Competition.

Mr. Speaker, this program is a great asset to universities across the country and I offer my sincerest congratulations to the Century Council and the University of Illinois.

**EXTENSIONS OF REMARKS**

HONORING THE JUMP START 2000 STUDENTS FROM MILLS GODWIN HIGH SCHOOL IN RICHMOND, VA

**HON. TOM BLILEY**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, April 13, 2000*

Mr. BLILEY. Mr. Speaker, today I commend a team of students from Mills Godwin High School in Richmond, VA on their outstanding top-place finish in JumpStart 2000. Students Yvonne Mowery, Amanda England, Ford Sleeman and Jason Selleck, coached by Ellen Mayo, took top honors in the 9-12 grade age group while competing against 2,024 other entries from 532 different schools nationwide.

JumpStart 2000 is a national science and technology challenge for students in grades K-12. They are tasked with identifying a problem of national or global importance in the 21st century and must propose an innovative solution that uses science and technology. The students work in teams of four under the supervision of an adult coach. The competition is sponsored by Parade and React magazines, and the National Science Board, the governing board of the National Science Foundation.

The Mills Godwin High School team impressed the judges with their entry titled "Saving the World a Drop at a Time." They identified the need for worldwide access to a clean and safe water supply as one of the greatest challenges facing the world in the next century, especially in developing nations prone to a high mortality rate due in part to water-borne diseases found in contaminated water. The students' solution was an inexpensive, low-maintenance water purification system that uses natural materials and UV radiation to filter and disinfect water, thereby preventing the spread of water-borne disease.

I congratulate Yvonne, Amanda, Ford and Jason on their exceptional achievement, and I thank their coach Ellen Mayo for her dedication to working with these talented young adults.

THE CHICAGO AREA ENTREPRENEURSHIP HALL OF FAME

**HON. JOHN EDWARD PORTER**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, April 13, 2000*

Mr. PORTER. Mr. Speaker, today I call your attention to the Chicago Area Entrepreneurship Hall of Fame sponsored by the University of Illinois at Chicago. Entrepreneurs inducted into the Hall of Fame are selected because they have steered their companies through significant challenges, and their businesses have emerged strong and vital.

Nominees are interviewed by members of the sponsoring organizations drawn from industry and voted upon by a judges panel. The Chicago Area Entrepreneurship Hall of Fame is the oldest recognition program of this kind in the Chicago area.

Winners selected for the 2000 Hall of Fame from Illinois' 10th Congressional District are:

Jacob Kiferbaum, of Kiferbaum Construction Corporation, Deerfield, Illinois; Lake Forest resident Elizabeth Van Ella, of James E. Van Ella & Associates, Chicago; and Marshall Marcovitz, founder and former owner of Chef's Catalog, Northbrook, Illinois. Each of these businesses experienced substantial revenue growth under the guidance of these outstanding leaders in the business community.

By honoring the hard work and perseverance of these creative forces we are projecting their accomplishments as examples that others can follow. Mr. Speaker, I ask my colleagues to join me in congratulating these Hall of Fame members on this achievement.

KINDERTRANSPORT—60TH ANNIVERSARY OF BRITISH HOSPITALITY FOR CHILD VICTIMS OF NAZI GERMANY

**HON. TOM LANTOS**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, April 13, 2000*

Mr. LANTOS. Mr. Speaker, on December 2, 1938, two hundred children from a Jewish orphanage in Berlin arrived in Harwich, Britain. Over the next two years—between 1938 and 1940—some nine to ten thousand children arrived in Britain from Nazi Germany. These missions of mercy, which were supported by the United Kingdom, were called Kindertransport (Children's Transport). The program rescued refugee children from Germany, Austria, Czechoslovakia, and Poland. Three-quarters of that number, some 7,500, were Jewish, and the other approximately 2,500 were of other ethnic and religious backgrounds.

Mr. Speaker, this year marks the 60th anniversary of the end of the mission of mercy of the Kindertransport. I think it is appropriate that we mark that anniversary and pay tribute to the Government of the United Kingdom for their involvement with this effort in saving the lives of these ten thousand children.

The British government eased its immigration restrictions for certain categories of Jewish refugees after the Nazis staged their violent pogrom against Jews throughout Germany and Austria on November 9, 1938, called Kristallnacht ("Night of Broken Glass"). The Movement for the Care of Children in Germany coordinated the effort to assist refugee children. This organization, in cooperation with the British Committee for the Jews of Germany, worked to persuade the British Government to permit an unspecified number of children under the age of 17 to enter the country from Germany and territories that were incorporated in Germany.

Once the children arrived in Britain, private citizens and charitable groups, including Jewish organizations as well as Quakers and many other Christian denominations, guaranteed payment for each child's care, education, and eventual emigration out of Britain. In return for this guarantee, the British government agreed to permit unaccompanied refugee children to enter the country with simple travel visas. Parents and guardians could not accompany their children, and as a result, infants included in the program were tended by
